

BLACK ISLA MANIFEST

1. We invite all futurists, anarchists, solitaires, non-conformists and true hyperspace scouts to occupy their temporary autonomy zones. Our weapon is clear mind, our ammunition are humour and unmitigated fantasy.
2. We definitely do not stand on the side of political deceits, oligarchic speculations, nor religious manipulations!!! Unbounded and total freedom is our only choice for this godless pool of informations. Remain at your basics centerpiece.
3. Personal ownership is a fallacy, just as the copyright does not find its real author anymore. We are all children of energetic tension, call it as you wish. No-one will name it.
4. There is no salvation for anyone who stopped listening to own steps and who became a slave of assumptions and other people's erring theories. Do not succumb to raping your spirit by spectacle of majority opinion and paranoid conspirations of „true“ glossarists.
5. The borders exist just inside our minds, therefore we do not encourage to its disruption. Let's destroy the beast colonizing our crystal clear and timeless mind. Let's become our own story, theory and myth.
6. This is the end of unrealistic utilitarizational spheres. The world is not brutally unchangeable. It is permanently moving in its ostensibly stable moments and no-one shall stop it. There is no way to get rid of ego as it does not exist.
7. Time and Space become one. Their permeation is global emptiness of the unrepeatable in the scientific theories and artistic paradigmas repetitiveness. Who is dividing, will be divided. Who is bringing together, will be brought together.
8. We answer by brutal attack of pacifism and ironic grin of parent nonviolence to fear initiators. Who wants to liquidate is eliminating own self. This is our intransigent way of revenge.
9. We are looking for deeper reason beyond the surface of matters in the depths of Island covered by mystical memory from ancient past. We are leading towards pan-galactic future of global Chaos which is engaging with Order in demonic unity.
10. Let's meet in the near future of the Absolute transcendency and elementary star shine romping. Enter the Black Island with us behind the borders of civilization abyss. Discover new Space inside the secret zones. Let's give it united outlines.

REVOLUTION INSIDE JUST BEGINS!!!
